

November 1st, 2023

Dear MLDWID Customers,

The Mt Lemmon Domestic Water Improvement District (MLDWID) is collecting information regarding copper and lead water pipes, as required by all water districts from the U.S. Environmental Protection Agency (EPA). We are asking each account holder to fill out the 2023 Copper and Lead Pipe Survey that was either sent to you via mail, or email on November 1st, 2023.

Only fill out one form per water account. All information of renters must also be included. Read the instructions provided that are on the survey form. For assistance in how to locate your water account number, go to the following link:

<https://www.mtlemonwater.org/bill-payment> and scroll down the page to locate “Billing Account Example”.

In order to collect all survey results needed, we are asking for you to submit your completed survey by **Sunday, December 31st, 2023**.

We thank you for your continued support and cooperation. For questions, please email mtlemmonwater@gmail.com.

Sincerely,

The Mt Lemmon Domestic Water Improvement District
